While I have not read widely concerning this matter, I am trustful that the alarm is not a false one. I shall follow up this act by delving into as much informative reading as I can manage. The Internet ought not to be corrupted and turned into the latest "vast wasteland".

I strongly oppose this and will be telling everyone I know regarding this. The cable and telephone companies should not be able to get away with this.

I'm pretty sick and tired of having the media controlled by three or four big companies. I feel that it's detrimental to the public interest to have such organizations controlling the dissemination of truth in our society, as they have the motive and means to subvert that truth for their own ends. I feel that allowing further consolidation of internet service would run contrary to the democratizing effects of the medium, and thus oppose it. I urge you all to do the same. Thank you.
